Digital States

“Coordinate responses with agencies...the grading also reflects their use of technologies compared against their peer states.”
 – Center for Digital Government

2016 Digital States Survey

- Enterprise-wide survey asks about state technology implementations, strategies, and initiatives.
- Questions in four business areas:
 - ✓ Finance, administration, procurement and human resource management
 - ✓ Public safety, emergency management, criminal justice and corrections
 - ✓ Health, social and human services
 - ✓ Transportation and motor vehicles.
- Survey responses limited to 3,100 characters, but can add info on a separate website.

2C2. Health, Social and Human Services: Specify examples showing support for the above-identified initiatives and technologies. Please include scope (state-wide, specific agencies, etc.), level of collaboration, innovation, investment, and specific outcomes achieved. If possible, please quantify the benefits. In the case of a major multi-year program, please indicate the percentage of work completed to date, and an anticipated date for achievement of the stated goals. Please include Web addresses of any relevant documentation and also include quantitative examples of results whenever possible. In this question, we are generally interested in work that spans multiple agencies (for example unified eligibility, case management, etc.) work that has been accomplished for Health Information Exchanges, and to meet the changes resulting from the Patient Protection and Affordable Care Act. (Note scoring will be based on accomplishments, not future plans.)

Responses will be limited to 3,100 characters (as measured in the survey online form), approximately 500 words.

2C4. For Data Collection Only: Thinking about IT systems and infrastructure initiatives, what are the Top 5 priorities for the coming biennium in Health, Social and Human Services?

2C4 -1)
2C4 - 2)
2C4 - 3)
2C4 - 4)
2C4 - 5)

2C5. For Data Collection Only: What plans or processes are in place to support the above priorities?

Responses will be limited to 2,500 characters (as measured in the survey online form), approximately 300 words.

 - ✓ Online services
 - ✓ Open data
- Examples of innovations
- Examples of cross-agency or multi-jurisdictional collaborations.

2016 Digital States Survey

- WaTech staff is reaching out to agencies to compile survey responses.
- Not looking for big write-ups. Bullet statement of accomplishments or work in progress.
- As in 2014, a website is being developed to post survey and additional info:
ocio.wa.gov/2016-digital-states-survey
- Email your content by **May 20, 2016** to
Digital.Survey@watech.wa.gov

DIGITAL STATES SURVEY

This is the State of Washington's response to the 2014 Digital States Survey conducted by the Digital States Performance Institute of eRepublic. The survey information was entered in an online application. The online form does not allow for bulleting, bolding or hyperlinks, all of which have been added to the information below. The online survey also

This presentation and the 2016 Digital States Survey will be posted with the other CIO Forum meeting materials.
