

Training

Enterprise Reporting Web Intelligence – Advanced Users

- Class Description:** In the Enterprise Reporting (ER) Web Intelligence - New Users class, you've learned the basic skills (how to create, save, modify, and export queries) needed to work with Web Intelligence document. In this 3 hour class, you will build upon those basic skills and learn how to work with report tables, group related data together into section, break a large table of data into smaller sub-tables, build multiple queries from different universes, merge data from different biennium to show trends, and create formulas and variables.
- Target Group:** Financial users who need to utilize queries and learn data mining techniques to ask questions, analyze data, and identify pattern or relationship using AFRS financial data.
- Prerequisites:** Participants will be most successful if they have taken the following classes:
- ER Financial Reports - Intro/New users
 - ER Financial Reports – Advanced
 - ER Web Intelligence - New users
- Class Objectives:** At the conclusion of class participants should know how to:
- Add Prompts to Filters
 - Add and Remove Columns/Rows, Move or Swap Columns/Rows, Replace Columns or Rows
 - Use Sections, Breaks and Sorts
 - Work with Multiple Queries
 - Merge Dimensions
 - Create Formulas and Variables
