MODERNIZATION

Through the HR/Payroll Modernization effort, the University of Washington will replace its 33-year-old legacy payroll system with a modern, integrated human resources and payroll system. Workday will provide the enterprise Software-as-a-Service solution; IBM will partner with Workday to provide implementation services. As part of this effort, the UW will also implement a set of standardized processes to significantly improve support for critical HR and payroll work across the University

- \$67,900,000 Total Cost
- Start Date: 03/01/2014
- End Date: 12/30/2016

Project review - SBCTC - ctcLink

A single, centralized system of online functions that will give students, faculty and staff 24/7 access to a modern, efficient way of doing their college business. ctcLink will provide a set of interconnected software modules to help streamline and standardize processes across all 34 community and technical colleges and the State Board office. But, it's about much more than new software. As the existing legacy software is replaced with modern technology, all college districts will also redesign and align current business processes.

- \$100,000,000 Total Cost
- Start Date: 12/31/2011
- End Date: 12/31/2017
