4. Apply expert resources
5. Provide strategic consulting
6. Spread best practices

Services:
- Planning, procurement, project management
- Enterprise architecture
- Governance design
- Performance measurement
- Process improvement
- Quality assurance
- OCM

WaTech Enterprise Program Engagement Services will provide **visibility** and **transparency** into large, complex, high-priority projects and programs.	We will coordinate a **multidisciplinary** team approach to troubleshoot and triage challenges, involving oversight consultants, project management partners, strategic vendors, and WaTech subject-matter experts.	Leveraging **unique enterprise experience, lessons learned, and perspective**, we are positioned to enable the spread and scale of innovation in service to statewide objectives. 90	Organize **and coordinate activities** that support success for the programs and projects in the state CIO's high-risk, high-priority portfolio, **OR** oversee the resources and activities for select projects.	Our team of resources is committed to coordinating and **partnering with leadership**, the governor's office, the authorizing environment, vendors, and other key stakeholders to model frequent, open communication and documentation.
Enabler: Early detection of problems.	**Enabler:** Rapid root cause diagnosis.	**Enabler**: Application of best practices.	**Enabler**: Rapid mobilization of resources.	**Enabler**: Transparency to leadership.
Outcome: Improved stewardship.	**Outcome**: Holistic problem solving.	**Outcome**: Improved portfolio health.	**Outcome**: Agency knowledge building.	**Outcome**: Enterprise portfolio mindset.
