

## Enterprise Data Strategy

### December 2024 Update

- Washington Chief Data Officer Irene Vidyanti hosted two in-person workshops on November 4 and 7 at the 1500 Jefferson Street Building. The workshops included over 150 invitees with more than 90 data leaders in attendance.
- Over 140 strategic themes were created based on over 1100 ideas generated. The input and engagement on this work has been tremendous. Next steps will be development of final goals and pillars to support a statewide data strategy. Themes discussed include data governance, workforce development, data literacy, and data standards. Stay tuned for more details as the work and strategy is refined.
